CONFIDENTIAL

February 6, 1982

MEMORANDUM FOR THE HONORABLE CHARLES Z. WICK  
Director, International Communication Agency

SUBJECT: Project Truth (U)

After several months of experience with Project Truth, it is appropriate to assess where we stand with respect to coordination of our international informational effort. (C)

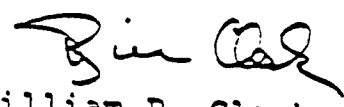

While important strides have been made and a number of significant initiatives undertaken, much clearly remains to be done by way of organizing and coordinating the participation and support of the relevant agencies in this project. There is also a need for a clearer definition of the objectives of Project Truth and related activities, the resources (particularly in the area of personnel) required to support those objectives, and the responsibilities of the participating agencies. (C)

Accordingly, you are requested to solicit and coordinate agency recommendations for strengthening Project Truth and related informational activities of the United States Government. Attention should be given both to improving the inter-agency mechanism and to upgrading the efforts of individual agencies. (C)

A report should be submitted to the President through the Project Truth Coordinating Committee by cob, March 7, 1982. (U)

FOR THE PRESIDENT:

NSC review completed.

  
William P. Clark

cc: The Secretary of State  
The Secretary of Defense  
The Director of Central Intelligence  
Chairman, Board for International Broadcasting
